UHP Cut Length Tube Extensions

Specialists in UHP Tubing & Components

**AES produces 316L SS 5 Ra
Tube Extensions in custom
lengths;**

- **1/4" Diameter Tube "Fittings"**
- **.250" to 14.000" Lengths**
- **UHP Packaged Ready to Weld**

Benefits include:

- **Optimize welding assembly operations – machined ends**
- **EP'd, Cleaned and Packaged to meet UHP semi-conductor gas specifications**
- **Heat engraved on OD for positive identification**

**Now you can get AES UHP
quality 316L SS tubing in
ready to weld lengths.**

These lengths are cut on our state of the art Swiss Lathe with the heat code engraved on each piece.

OD's are polished to a uniform satin finish to make your assembly look great.

Each piece is UHP cleaned and packaged to meet the most stringent requirements.

Have your fitting supplier "kit" these as another assembly component.
